

INVEST IN MY FRIENDS' LEARNING

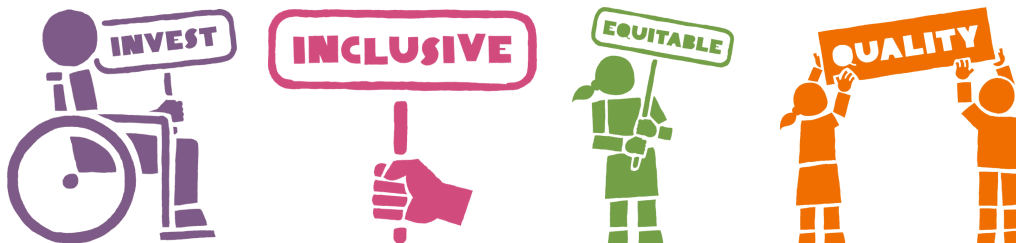

This week, the Send My Friend to School coalition is launching its “Invest in My Friends’ Learning: How the UK can reprioritise and protect funding for global education” 2025-2027 campaign.

Our campaign calls on the UK Government to reprioritise education within its international development agenda and play its part to close the education funding gap.

Time is running out for the world to deliver on its promise of inclusive and equitable quality education for all. Education remains critically underfunded, leaving millions of children without access to learning. Now is the moment for the UK government to act, reform and commit to protecting global education.

If you have any questions, don’t hesitate to get in touch with Sophie Peterman (Campaign Manager, Send My Friend to School) at sophie.peterman@sendmyfriend.org - Thank you!

Education is a right, not a privilege 🇬🇧🌍. Yet millions of children are still missing out. The UK has a role to play in ensuring every child can learn.

Investing in education today is investing in the future. 🇬🇧🌍 I’m supporting @sendmyfriend’s call for the UK to step up funding for global education. Every child deserves the chance to learn.

No child should be left behind. 251 million children worldwide are out of school – now is the time to act to close that gap and the UK must play its part.

Education financing must be the #1 priority for governments. Yet millions of children remain out of school. The UK has a key role to play – let’s make education a global priority 🇬🇧🌍

Five years until the 2030 target date of the Sustainable Development Goals (SDGs), and SDG4 is at risk. Without urgent action, millions of children will be left without an education. The UK must play its part in securing more and better funding for education worldwide 🌍📖

Investing in education is investing in the future. 📖🌟 With just 5 years to go until the 2030 target date of the Sustainable Development Goals, we must act now to close the education funding gap. The UK has a key role to play.

As part of the Send My Friend to School coalition, our policy report recommendations for the “Invest in My Friends’ Learning” campaign are... 1. Reprioritise and protect UK ODA to education. 2. Take action to ensure the Global Partnership for Education (GPE) and Education Cannot Wait (ECW) are fully funded. 3. Support reforms to enable growth of domestic budgets for public education.
